Quality Assurance Committee

The Quality Assurance Committee consists of five other members and myself.

The Quality Assurance Committee usually receives a request from the Registrar, Dr. Bernie White to assess cases that are part of a Professional Conduct Committee Investigation.

During the investigation process the committee reviews complaints or concerns from patients, the member's response to the complaint, and also all patient records, and patient radiographs.

The committee then reports back to the Registrar and Professional Conduct Committee with recommendations.

I would like to thank the following members of the QAC: **Dr. Stefan Piche**, **Dr. Paul Louie, Kim Neudorf Public Rep, Dr. Gerry Uswak**, **Dr. Jenny Tran** as well as **Dr. Bernie White** and **Marion Lafreniere** for their tremendous work and excellent contribution to this committee.

Respectfully submitted,

Dr. Louië Kriel
