There are several reasons for myself seeking a position on Executive Council. I have been involved with the CDSS for several years, but never at the capacity of Executive Council and I would like to do this. The responsibilities and workload albeit challenging, I do look forward to the achievements and goals one can attain by the end time of being on Executive Council.

Our past College Presidents who have been classmates and colleagues of mine have been respected clinicians and leaders, not to mention well learned and gifted decision makers. It would be quite an honour to join their ranks, another goal of my professional dental career.

My goals by the end of term would be to bring to the forefront, dental public well being concerns brought to the CDSS by councillors and members that are not being addressed, but need to be addressed as they pertain to public service and public protection.

If accepted, I look forward to working with staff and councillors at CDSS as well as with our national colleagues. Regulation & public protection being the key words but "in good oral health" is the motto of my dental profession.

Respectfully Submitted,
